**GCSEs**

Tauheedul Islam Boys' High School, Blackburn, ABD

- GCSEs: 6 A\* and 5 A

As a recent maths graduate and self-taught front-end developer, I am committed to creating high-quality web experiences that meet the needs of users. With proficiency in HTML, CSS, JavaScript, React, and Redux, I am skilled in developing responsive websites and applications that are both functional and visually appealing. I have a strong eye for detail and focus on producing clean, maintainable code that meets best practices and industry standards.

In addition to my technical skills, I possess excellent communication skills and thrive in collaborative team environments. I am eager to continue learning and growing as a developer and am excited to apply my skills and experience to a junior front-end position.

## EXPERIENCE

June 2017 - July 2017

**Accountant's Assistant Amaanat electrical**, Harare, Zimbabwe

- Reviewed payments, expenses and outstanding invoices, identifying discrepancies quickly and efficiently.
- Reconciled bank statements, ensuring there were no errors
- Introduced a new system in excel to solve problems faced within the business

## ADDITIONAL SKILLS

### Experience with Web Development

I have completed the CodeCademy Front-End Engineer career path, which has allowed me to develop my skills in web development. I am confident in my ability to use **HTML, CSS, JavaScript**, and the **React** framework to create responsive, visually appealing websites with great user experience. Through completing projects and creating websites, I have gained experience in best practices for writing clean, maintainable code.
